IGNORE 8-HOUR WORKING DAY

WHAT THE LEGISLATORS ARE DOING.

Willful disregard of the eight hour day was manifested by the members of the legislature during the past week. Long regular sessions were supplemented by committee meetings held in the forenoon, late afternoon and evenings. The pent-up oratory and barrage of arguments which have been brewing under the big dome during the previous seven weeks boiled over during the past week and long and fiery debates resulted.

Patriotism vied the pressure of business in legislative halls on Washington's birthday. The serious attitude of the solons is indicated by the fact that they did not find in this legal holiday an opportunity to play hooky from work, but re-doubled their activities. After important regular sessions in both branches, the senators were guests of the representatives in the evening at a patriotic program given in the House Chamber.

Enactment of the entire program of administrative reorganization, as proposed by Governor Groesbeck and sponsored by the Michigan State Farm Bureau, appeared probable when the Senate concurred in the amendments made by the House to the first two administrative bills, providing for the creation of a State Administrative Board and for uniform auditing of claims against the state. These bills have passed both branches of the legislature without a dissenting vote and have been signed by the Governor.

The first real legislative battle of the session was fought over the "alien firearm bill," sponsored by Rep. Lennon of Genesee, which, though ostensibly intended to prevent the hunting of game by unaturalized aliens is really planned to prohibit the possession of firearms of any kind by unaturalized foreign-born residents.

Representatives from Detroit and the Upper Peninsula, who have a large foreign born population in their respective districts, attacked the measure with a heavy fire of amendments. Their attack was supported by members of the House Judiciary Committee who sought to have this bill referred to them. Under the aggressive leadership of Rep. Lennon, who spoke almost alone in favor of his bill, the measure finally passed the House in substantially its original form, by a vote of 56 to 20.

Another pitched battle of almost equal intensity was waged over the constitutional amendment, proposed by Rep. Moore of St. Clair, to increase the number of signatures required to institute a constitutional amendment from 10 to 20 per cent of the voters at the last state election. After long and heated consideration, the measure fell three short of mustering the necessary majority of 51 votes, and lost by a score of 48 to 40.

The past week has disclosed further evidences of the determination of the Senate to learn just what has been done with the money which has been appropriated for the construction of the State Office Building before granting the budget request of \$1,140,000 which it is claimed is necessary to complete the structure. A report on this subject was received by the Senate, but was not considered satisfactory; so a resolution authorizing the appointment of a committee of three senators to get further information was adopted. Senators Henry of Calhoun, Ross of Livingston and Brower of Jackson were appointed. Similar dissatisfaction with the report of the Pardon Board was evidenced by the House and a resolution providing for a joint committee of the House and the Senate to get further information relative to the activity of this board was passed by the

House.

A very favorable report of conditions at the Michigan State Prison at Jackson was presented by the House committee on that institution. The report states that the honor system has worked well, commends discipline of the institution, and shows that the committee was satisfied with the living conditions of the inmates. While the committee realizes the need of the institution for a new prison building, it does not feel that the condition of the state's finances warrants the expenditure of four million dollars for this purpose during the next two years.

Petitions still continue to come in generous quantities. The question of the retention of the State Constabulary has caused the greatest display of interest on the part of the public in matters legislative. 71% of the petitions on this subject have been favorable to the continuance of the State Police and to granting them an enlarged scope of usefulness, as proposed by the state farm bureau.

Among the 76 new bills thrown into the legislative hopper during the past week, probably the most important legislative development was the introduction by Sen. McArthur of Eaton in the Senate and Rep. Mosier of Allegan in the House of a proposed constitutional amendment which would allow the Legislature to enact an income tax law in Michigan. With the appearance of this resolution, practically all of the measures advocated by the state farm bureau are receiving the attention of the law makers.

Among other important bills introduced during the week were: the "one buck" deer law, by Rep. Glaspie of Oakland; provision for the payment of "old age" pensions of \$5.00 a month to indigent persons over 65 years of age, by Rep. Jensen of Delta; a six-day week for motormen and conductors on street and interurban railways, by Sen. Riopelle of Wayne; increase to 30 miles per hour in the legal speed limit for auto vehicles, by Sen. Penney of Saginaw; a measure to require the licensing of garage men and the employment of competent mechanics therein, by Rep. Lee of St. Clair; and a "bill to prohibit the sale of tickets for more than the actual seating capacity of any theatre, athletic grounds and places of public amusement," by Sen. Bolt of Muskegon. A maximum penalty of \$100 fine or 90 days in jail for each person so standing is specified.

Some of the most important bills reported favorably by the legislative committee are: the constitutional amendment allowing for the payment of state bonuses to ex-service men; the bill providing for Michigan's co-operation in the Great Lakes-St. Lawrence-Tidewater project; bill to allow the revocation of a teacher's certificate for breach of contract; and the bill prohibiting the state or municipal construction on the "cost-plus" basis. Several of the appropriation bills have been reported out by the institutional committees. All showed signs of having been severely cut and some were hardly recognizable.

Probably the most rapid fire legislation of the week was witnessed in the Senate on Tuesday morning when nine bills passed third reading in twice as many minutes. Among these were the bills to prevent bringing undipped sheep into the state during certain months and the measure to prohibit the marriage of a girl under sixteen. Rep. Lord's bill to repeal the tax exemption now enjoyed by bonds of other states and municipalities outside of Michigan, the bill to repeal the sections of the present highway law which provide the means by which a county may withdraw from the county road system, the bill to increase the witness fees in criminal cases to \$2 and \$3 per day, a bill embodying numerous amendments to the present Covert highway law, that to protect the wearing of American Legion Badge; and the resolution to amend the constitution to allow townships to establish hospitals passed third reading in the House almost without a dissenting vote.

MANY KILLED IN TRAIN COLLISION

M. C. AND N. Y. C. EXPRESSES CRASH AT PORTER, IND., AND OVER 100 ARE INJURED.

ENGINEER DISREGARDS WARNING

Passes Red Flag Signals and Gets Half Way Over Crossing When Other Strikes.

Porter, Ind.—Forty persons were killed and 100 were injured in a wreck of Michigan Central and New York Central passenger trains in this city at 6:20 o'clock Sunday evening, according to officials of the Michigan Central railroad.

The Michigan Central train is known as "The Canadian" and was due in Detroit at 12:10 Monday morning. The New York Central train was No. 151, known as the Interstate Express. It was bound to Chicago from Boston. Both trains were made up almost exclusively of Pullman cars.

"The Canadian" operated between Chicago and Montreal, with through coaches to New York City, was made up chiefly of Canadian Pacific equipment. It carried passengers for Detroit, and intermediate points between Chicago and Montreal and New York.

Scores of passengers, pinned in the wreckage of the coaches, were burned by the fire which broke out immediately, but was later extinguished by the volunteer fire department of the village.

According to first information the engineer on the Michigan Central train ran past two red signals which had been set to give the Lake Shore train the right of way.

Among the dead known on the New York Central train were the two engineers. The engineer of the Michigan Central is missing. It was reported that he leaped from his cab when he saw the oncoming New York Central train.

The tracks of the two railroads intersect here at a sharp angle, being almost parallel. The Michigan Central train was believed to be crossing the intersection when it was derailed. The towerman was blamed by railroad officials for allowing the Michigan Central train to attempt to cross ahead of the westbound train.

TO TRY 16-YEAR OLD BOND THIEF

Grand Jury to Get Evidence in \$772,000 Bond Robbery.

Chicago—Evidence in the case of William Dalton, 16-year-old \$65 a month bank clerk, who was arrested in Heyworth, Ill., 48 hours after he had stolen \$772,000 in Liberty bonds from the Northern Trust company here, where he worked, will be placed before the grand jury.

Robert Crowe, states attorney, said every effort would be made to bring about speedy punishment of the boy who found it a simple matter to carry out the biggest bond theft in history, only to fall into the hands of a village constable after he had been recognized from pictures published in newspapers.

JAPAN WANTS CONTROL OF YAP

Protests Claim of U. S. to Island Wanted for Naval Base.

Tokio—Japan will insist upon its mandatory to the island of Yap, according to authoritative Japanese opinion.

It is explained here that Japan bases her mandatory on the final decision of the supreme council in May, 1919, which handed over the German islands north of the equator to Japan without mention of reservation. If President Wilson made oral reservations to the council, it is declared that Japan was not represented and has no official cognizance of this.

U. S. DESTROYER SUNK IN CRASH

One Dead, 15 Missing, After Collision of Steamer and Navy Boat.

Washington—One naval enlisted man dead, 15 missing and two injured is the result of a collision between the American destroyer Woolsey and the American steamer Steel Inventor off the Pacific coast of Panama.

The Woolsey was cut in two at the after tank and sank at 6 o'clock Sunday morning while in tow of the destroyer Aaron Ward. The Aaron Ward and the destroyer Philip took 112 of the Woolsey's survivors aboard.

Taking Liquor Not Stealing.

Atlanta, Ga.—Thieves may steal your liquor without fear of prosecution. That is what Judge John D. Humphries of the Fulton superior court ruled at the trial of a city detective charged with stealing liquor from a self confessed bootlegger. The judge ruled that liquor has no legal status and cannot be protected by the laws, consequently one cannot be arrested for stealing it. He said that the owner might prosecute as a violation of the prohibition law.

U. OF M. QUINTETTE UNDER CAPT. KARPUS MAKING GREAT RECORD.

His Parents Witness Game With Illinois and Attend Ball.

The University of Michigan basketball team of which Arthur J. Karpus of Grayling is the captain, is making a great record this season, their last two victims being Illinois and Purdue. The fast Illinois team had to take the small end of 28 to 18. The U. of M. team is wonderful and according to the newspapers Karpus is easily the star.

The Illinois game was played at the Waterman gymnasium at Ann Arbor, last Saturday night. Mr. and Mrs. Stephen Karpus now of Bay City, parents of Capt. Karpus and his sisters Isabel and Betty witnessed the game. The former says that it was one of the best treats of his life to see Illinois get beaten. "There was only one thing I missed," said Mr. Karpus, "and that was some of my old Grayling friends to help. But on the other hand, there were plenty of rooters, as the Waterman gymnasium was packed to bursting and you can imagine what 2,500 healthy students were capable of as noise makers whenever occasion arose. I cannot say too much for the Michigan team, they having the ball in their territory most all the time."

After the game Mr. Karpus and the two daughters were guests of Capt. Karpus at a ball given in the Michigan ball room, and the former says that it was some swell party. The next morning the Karpus party motored to Detroit to spend the day with their married daughter, Mrs. Amelia Marchewski.

TAKE A TRIP TO DENMARK FOR 25 CENTS.

Year 1864 Denmark was at war with Germany, the result was Denmark was beaten and lost the two provinces Schleswig Holsten in Art. 5 in peace treaty at Pragias Austria. The Germans promised after 12 years to let the population in that territory decide by vote if they wanted to reunite with Denmark, but the promise was never fulfilled. For 56 years the Danish population put up a hard fight for their language, and when the world war broke out 20,000 Danes by heart, were forced to fight for their oppressor, Germany, 6,000 of them were killed. President Wilson was the first man who tried to right that wrong when on the 12th of November 1918, used his influence in behalf of the Danish nation, and by a plebiscite vote 1533 square miles of the most fertile land of Schleswig was given back to Denmark. When the Danish King took possession of that land great celebrations were given for the occasion, and some of these were filmed through the Danish Legation in Washington, D. C.

These films were brought over here to be presented wherever there are Danes who ask for them and they will be at Grayling, Temple Theatre, Friday, March 18. Besides the films there is 50 slides showing as many different places in Denmark, so no doubt a good many will have a chance to see the place where their childhood was spent. Everybody will be welcome to look at the pictures, as we presume it will interest the American born people too, to see some of the results our boys were fighting for.

The usual fee of 25 cents will be charged but Mr. Landsberg says, he will have some other pictures to show besides the Danish. Show starts at seven as usual and the Danish pictures will take about 1 hour. Don't forget March 18th.

GRANGERS ATTENTION.

Don't forget the special meeting of the Grange, March 8, next Tuesday. It will be an open meeting so bring your neighbor.

This meeting will be the revival of the Grange, let's hope, for other Counties and states are increasing their memberships with a rush. Must Crawford County remain the last and the least? No. Come let's put Crawford County on the map as the best agricultural county in North-Eastern Michigan. We can do it, if we have the aid of every farmer.

When Mr. Kiefer reports to the chairman of the extension committee of the State of Grange, what will he say?—That Crawford County is hopelessly dead or the liveliest bunch in N. E. Michigan. It's up to you. So come and boost.

Clifford Merrill, Lecturer.

REPUBLICAN CAUCUS.

 - 1 Overseer of Highways for District No. 1.
 - 1 Overseer of Highways for District No. 2.

SCHOOL OFFICERS' MEETING.

SCHOOL NOTES.

The truest self-respect is not to think of self.—Beecher.

Mumps, mumps. They give us the chumps. Because they form lumps. That feel like bumps. And look like humps. On the side of your face.

Miss Nowlin and Miss Abbott are entertaining the mumps. We imagine by the looks of their faces that Miss Farr, Miss Woodward and Miss Jones have sent them invitations. However they have not been accepted yet.

Mr. Smith is attending the National Educational Convention at Atlantic City.

Latin teacher: "Translate 'Caesar si dicat an dei cur egisse licetum.'" The Dreamer: (waking suddenly): "Caesar sicked de cat on de cur and I guess he licked 'im."

The Musical department of the school will give an operetta, "The Feast of the Red Corn," March 18, nineteen hundred and twenty-one.

Gierke and Nelson made soap in the laboratory Tuesday. They have decided to put it on the market as N. G. soap. Right-O-boys, no good.

When you're up you're up, when you're down you're down, when you're up against Grayling you're upside down. Two more B. B. teams left town defeated last Saturday. They were: Mancoske and St. Ignace. The score for the girls was 4 to 7. The boys' was 10 to 34.

Come out Friday night and see our boys beat Wolverine.

Beat 'em last year
Beat 'em the year before
Gonna beat 'em this year
If we never beat any more.

In Biology.

Teacher: "What makes the butterfly fly?"
Gordon: "Caterpillar, guess."
John: "You're wrong; it's the buck-wheat cakes."

After having had room charge for a few weeks, Miss Jones has decided to teach in a deaf and dumb school next year.

Mildred Bates and Ruby Olson are substituting for Miss Nowlin: Ruby in the morning and Mildred in the afternoon.

Don't fail to see Miller, the Magician, March 23 at the school house.

Good Evidence.

"Jimmy," said the fond mother to her smart 11-year old, "what became of the little pie I made for you as a treat yesterday? Did you eat it?"

"No, mamma," answered Jimmy with a grin; "I gave it to my teacher at school instead."

"That was very nice and generous

of you, Jimmy," complimented his mother. "And did your teacher eat it?"
"Yes, I think so," answered Jimmy, "She wasn't at school today."

Frank Cody, superintendent of Detroit schools said that the parent-teachers' associations had helped to bring the teachers closer to their pupils, both in school times and in leisure hours. He urged that the association organize in the four corners of the state, to restore to the children of the state the equality of birthright in education.

We are fortunate in having in Grayling a parent-teachers' association already organized and in good working order. What we need now is the support of the parents. The best way to give this support is by attending the meetings. March the fifteenth is the date set for the March meeting at which the subject of school ground equipment will be discussed and papers on the subject read. A considerable sum of money is now on hand for this purpose and it is hoped that a goodly number will be out to help in making the decision as to the best place to expend it.

The Teacher's Party.

The Teacher's party held at the James Hanson residence Tuesday night was a decided success in spite of the absence of a number of the teachers. Miss Abbott and Miss Nowlin were absent on account of illness, and Mr. Smith, of course was out of town, however Mrs. Smith held up the social obligations for the family by not only attending, but by capturing the first prize at "500". We have decided not to expose the winner of the "Booby" at this time, but shall certainly do so if she ever lets it happen again. The "taffy pull" was very unusual in that the pull consisted of pulling it out of the dishes with spoons.

A FINE GRANGE TRIBUTE.

Seldom has a stronger tribute been paid to the Grange than the following quotation from the Rural New Yorker, which Patrons everywhere will be interested to read:

"The National Grange seemed to take on a new lease of life at its annual meeting in Boston. This fine old organization came to the front with a great attendance and renewed interest. Other organizations may come and go, but the Grange has elements of human interest which hold it solidly together. Its last meeting attracted general attention and the daily papers gave good space to its platform. City men seem to argue that the Grange expresses the desires of the great middle class of farmers. It was thought at one time that the Grange might suffer from the effect of the organizing of farm bureaus and other farm movements. The effect seems to have been to stimulate the Grange to harder effort and we think it is now starting upon a new era of great prosperity."

SELECTED GOOD THINGS.

When there is a little popped corn
left try this wholesome dessert:

Popped Corn Pudding.
Scald three cupfuls of milk and
pour over two cupfuls of popped corn
which has been pounded until fine
and let stand one hour. Add three
eggs slightly beaten, one-half cupful
of brown sugar, one tablespoonful of
butter, three-fourths of a teaspoonful
of salt and stir until well mixed.
Turn into a well buttered baking dish
and bake in a slow oven thirty-five
minutes. Serve hot with thin cream
or maple syrup.

Peach Whip.
Beat the whites of three eggs until
stiff, add three tablespoonfuls of
powdered sugar and beat to a glossy
meringue. Peel half a dozen peaches
and press through a sieve; gradually
add this pulp to the meringue, beating
all the time and sprinkling in one
tablespoonful of lemon juice. Heap
in tall glasses and serve at once.

Crisps.
Cream one cupful of butter, add
gradually two cupfuls of sugar, three
eggs beaten until light, the grated
rind and juice of a lemon and flour to
make a mixture to roll. Knead slight-
ly, cut in shapes, brush with white of
an egg, sprinkle with coarse granu-
lated sugar and chopped nuts. Bake a
light brown.

Velvet Sherbet.
Take the juice of six lemons, and
the grated peel of two, soaked in the
juice one-half hour. Add one cupful
of sugar to each lemon, or sugar to
taste; three pints of rich milk and
turn into the freezer. The mixture
will curdle but the freezing will make
it smooth and velvety. Turn the
freezer slowly at first.

Chess Cakes.
Put into a mixing bowl, one-half
cupful of butter, add the grated rind
of two oranges and one-half cupful
of powdered sugar, one-half cupful of
currants, one well beaten egg, two
tablespoonfuls of grated coconut and
half a dozen crumbled macaroons;
mix the ingredients and pour into
small patty tins lined with pastry.
Bake fifteen minutes in a hot oven.

Baked Pears.
A delicious way of serving pears is
to cut them in halves, core them,
place in a baking pan with a generous
sprinkling of sugar and half fill the
pan with water. Cook slowly two
hours in a moderate oven. Serve with
sweetened whipped cream.

Cucumber Sauce.
Beat one-half cupful of heavy cream
stiff, add a few grains of salt, cayenne
to taste, two tablespoonfuls of malt
vinegar, one medium sized cucumber
grated and drained, season with the
juice of an onion. This sauce is es-
pecially good to serve with fish.

Cherry Sherbet.
Take one pint can of cherries, drain
and cut in small pieces. Add one cup-

ful of water to the juice, cook five
minutes and add a tablespoonful of
gelatin that has been softened in a
cupful of cold water. Add the cher-
ries and four egg whites beaten stiff.
Freeze and serve in glasses, garnished
with candied cherries.

Candy Without Sugar.
Take two cupfuls of raisins and one
cupful of nuts, put them through the
meat chopper, mix with one-fourth of
a cupful of honey; pack under weight
for a day, then cut into bars.

Mrs. Hazel Howard, who has been an invalid for years, left Tuesday night for Ann Arbor to enter the Psychopathic hospital for treatment. She had received treatment at this hospital at previous times. She with her son R. C. Howard had resided in Grayling but a short time.

A crowd appeared at the O. L. Shreve farm at Lovells, Sunday, Feb. 27, and remained until the next day, getting acquainted, then took up his abode in the poultry house, from which he was removed Monday evening to a cage. Mr. Crow evidently looked at the wrong page of the calendar.

The younger set of Grayling have been quite gay with their own affairs of late. Mike Webster, brakeman on the M. C. yard engine in Cheboygan suffered a badly crushed foot, while at work shortly after noon last week Thursday. Mr. Webster in making a coupling used his foot to push open the coupling bar. His foot slipped in the operation and before he could jerk his foot away it was caught between the two bumpers. Altho the fore part of the foot was badly crushed it is thought that it can be saved. Webster is well known in Northern Michigan as he has been identified with some of the best base ball teams and has played on almost every diamond in this section.

Dr. and Mrs. Oscar Palmer left Sunday night for Mobile, Alabama. They intend to be away for about three months. They will spend part of their time in that city and next Monday expect to unite with the National Editorial association, which will make a tour of Florida, lasting about two weeks. For many months the Palmers have been planning this winter trip to the sunny south and they intend while there to rest and enjoy themselves. A post card mailed from Cincinnati Monday evening said that they were taking the train for the last part of their journey which would get them to Mobile at about 4:30 a. m. Tuesday. They were feeling fine but tired. Their many friends at home will wish them a pleasant time and look forward to their return to the "Only town on the map."

The latest report from Henry Bauman, who is at Harper hospital at Detroit, is that he is getting along alright. It has been reported that he had been operated upon for mastoid; this however is a mistake. There was an infection on the skull back of one ear and the bone required scraping. While he is getting along fine, it is expected that he will have to remain at the hospital for about two weeks longer.

The members of the Citizens band had a rabbit supper Monday night. "Bill" Cody with his trusty weapon had been out and as usual brought home a good bag of game. That night he appeared at the band meeting and told the members that there was a lunch awaiting them, after the meeting, and invited all to partake. The boys were surprised to find there a fine rabbit supper and the several appetites were properly whetted and "commiss" filled. Rest assured the boys enjoyed the treat immensely and voted "Bill" a fine fellow.

Mrs. Amanda Spencer, who has resided alone for several years in a small house beyond the band mill, and whose mind was found to be mentally deranged was taken to the State hospital at Traverse City for treatment Tuesday. Deputy Sheriff L. J. Kraus and Mrs. Jennings accompanied the aged woman. When found the old lady was in bed and there was no word about the place with which to build a fire. People living on du Pont avenue and others had carried food to the old lady during the winter. At one time officials tried to persuade her to make her home at the County Infirmary, but she objected strongly to this.

Saturday, Feb. 26 was Betty Welsh's birthday and to celebrate the occasion Mrs. Welsh entertained about 18 of Miss Betty's friends. The first part of the afternoon was spent at a theatre party—Charlie Chaplin being the feature. After this the little guests returned to the Welsh home, where a fine lunch was awaiting them. Over the table, which was artistically decorated with little flags and Washington's birthday favors were numerous colored balloons which looked like a variety of bubbles. These were given to the youngsters after lunch. Miss Betty made a fine hostess and her sixth birthday will always be remembered by her.

Men's and boys' rubbers, while they last, at cost. All first quality. E. J. Olson.

FILMING NEW YORK.

The first George Fitzmaurice Production, "On With the Dance," featuring Mae Murray and David Powell at the Opera House Sunday evening, March 6, is a photoplay of New York life, showing the big metropolis in all its phases. This is not the first time that Mr. Fitzmaurice has filmed such a subject. He once produced a picture called "New York," in which the slums of the East Side and the gay cabarets were mingled. His big success led to the signing of the talented director by the Famous Players-Lasky Corporation, and the wish was expressed at the time the contract was drawn up that another story like "New York" might be found. This hope was realized in "On With the Dance," which was prepared for the screen by Ouida Bergere, in private life, Mrs. Fitzmaurice. It is a Paramount-Artcraft picture.

As soon as business becomes more stable, the live stock growers, through their central exchange, propose to take over this function themselves.

\$500,000 FOREST PLANTED IN STATE

PUBLIC DOMAIN COMMISSION HAS NINE FOREST TRACTS UNDER CULTIVATION.

WOOD FAMINE SEEN BY LUSK

Work of State Offset By Decline In Reforestation Conducted By Private Enterprises.

Lansing.—Nine forest tracts, averaging about 18,000 acres each, are under intensive cultivation by the state, according to Commissioner Lusk, of the state public domain department. On each of these tracts an organized rotation system has been introduced.

A policy has been adopted, Mr. Lusk said, of using more of the land which is turned over to the state through failure of owners to meet tax assessments for reforestation purposes.

The rotation system used on the various tracts is one which will find elimination probably 30 or 40 years hence, Mr. Lusk explained. At that time it is expected the trees "crop" will have sufficiently matured so that each year a quantity of timber can be cut. For every tree cut another will be planted.

That this method of reforestation will eventually become a paying proposition for the state is the claim of the commissioner. Five hundred thousand dollars has been expended so far in furthering reforestation projects. The land on which this money has been spent has increased in value.

To offset the growth of timber by the state, however, private enterprise in reforestation is showing a decline, according to reports received at the public domain offices. The fact that the crop, when timber is planted, is so slow in developing is attributed as the chief reason.

The Michigan Agricultural college, co-operating with the public domain commission, is making an effort to interest private owners in private reforestation, but the response, Mr. Lusk said, is very slight. Commissioner Lusk sees in the situation a wood famine in a comparatively few years unless private owners can be induced to take up reforestation.

"Three days ago," Mr. Denby was quoted by H. D. Ramsey, one of the educators, "I had absolutely no suspicion that I was to be appointed secretary of the navy or to any other post in the cabinet."

Less than a score of members supported it. The law was designed as a protection against fire.

MAY ASK VOTE ON STATE INCOME TAX

VOTERS MAY ALSO DECIDE ON QUESTION OF PRIMARY OR CONVENTION.

JACKSON PRISON SYSTEM O.K'D

Complaints Against Warden Hulbert Not Based on Facts, Says House Committee.

Lansing.—A constitutional amendment to permit the people of the state to pass the question of a state income tax law has been proposed in the senate by Senator MacArthur.

The resolution provides that the voters shall instruct the legislature whether they want laws for the administration of a state income tax. Members of the judiciary committee have not yet agreed on the Hart bill providing optional capital punishment in Michigan. Rep. Russell A. Hart, Detroit, who is author of the bill, has declared that he will demand that it be reported out by the committee for consideration on the floor of the house.

Initiative Not to Be Changed.

Nomination of all constitutional state officers by direct primary, is provided for in a constitutional amendment presented by Rep. George Lord, Detroit. The measure would also make these officers thus nominated, delegates to state conventions for the purpose of formulating party platforms and issues.

Mr. Lord declares that his amendment will bring a showdown on the question of primary versus convention systems. He also declares that it will abolish for all time the power of political bosses in the state, making the elective officers directly responsible to the people. The governor and lieutenant-governor are now the only state officials subject to the primary. The other officials being nominated at the party conventions.

Other bills are pending which would go to the other extreme and abolish all primaries.

After sharp verbal battle in the house, the joint resolution to increase from 10 to 20 per cent the number of signatures required to place an amendment in the ballot failed of passage for lack of a two-thirds vote. The resolution was proposed by Rep. Moore, St. Clair, who had as his principal opponent in debate Rep. Aaron Miles, Mecosta county.

Prison "Paddling" Justified.

Rather than criticism for the seven instances in which corporal punishment has been resorted to in Jackson prison during the last 18 months, Warden Harry Hulbert should be commended for the fine discipline in the institution, according to the report filed by the house committee. The report states that those who have been demanding removal of the warden on this score have taken action "based on entire ignorance of conditions existing at this institution." The report was submitted by Rep. Franklin Moore, St. Clair, chairman of the committee.

Declaring the report of the pardon board incomplete, and for that reason inaccurate, Rep. Charles Evans introduced a joint resolution in the house calling for the appointment of a joint committee composed of two senators and three representatives to investigate the work of the prison and pardon board since 1906. On motion of Mr. Evans, the resolution was placed on its immediate passage and adopted.

Senator James Henry, Battle Creek, has declared the report of the commission in charge of the construction of state office buildings as unsatisfactory, and further investigation will be made this week. Total appropriations of \$1,750,000 have been provided for the work but additional funds have been requested which will bring the cost of the building to about \$3,000,000.

Firearm Bill Passes House.

Weathering a barrage of amendments, aimed to destroy its effectiveness, as well as a series of assaults in an effort to drive it into the oblivion of a committee room pigeon hole, the Lannon firearm bill was passed by the house by a 56 to 20 vote. In supporting his bill, Rep. Lannon declared that the alien had brought the peccancy for drastic action upon himself by a consistent refusal to obey the laws of the country and conduct himself as a peaceful citizen.

Among the bills passed by the senate is included the following: That proof copies of ballots be submitted to county candidates; that a joint resolution to restore Fort Mackinac to the United States be repealed; that the importation, sale or running at large of diseased sheep be prevented; that notice of formation or abolition of new election precincts must be filed with the secretary of state; and Senator Riopelle's bill to prevent the marriage of girls under 16 years of age.

The house passed Rep. Albert Reutter's bill which doubles the minimum penalty for automobile stealing, also the bill which amends the state highway law so as to prevent counties returning to the township unit for road building purposes. It was given immediate effect at the request of the state highway commissioner.

The state is now paying more than \$21,000 annual rental for branches of the state departments located in Detroit and Rep. Reutter is preparing a resolution providing that all departments be gathered under one room at half the cost.

Opposition to 8-Hour Day.

Charging that the Holland 8-hour bill now pending in the house is a "wage proposition, pure and simple," Attorney Hal Smith, representing the Michigan Manufacturers' association at a hearing before the house labor committee declared the manufacturers of the state could not endure such wage increases. The bill, sponsored by the Gogebic county representative, defines eight hours as the working day in mines, quarries, factories, shops and mills and provides for time and a half for overtime.

LOVE THE YANKS

People of the Alsie Realize Debt to Doughboys.

"Les Americains" Will Long Be Remembered With Gratitude in That Part of France.

Alexander Woolcott writes in the North American Review that whatever of bitterness and disappointment there may be traced in the attitude toward this country among certain French people—and that bitterness is grotesquely exaggerated by some of the uncomprehending tourists—you find none of it in the Alsie.

After all, any man's notions on large questions are narrowed and colored and deflected by his own personal experience. I suppose many a Yank who lost his arm in France and was later deceived by some French shrew now cares precious little what becomes of the "frogs" the next time Germany splits her seams. Then I know one Brittany mother whose bawling three-year-old boy is a daily reminder of a passing surgeon in olive drab who saved the eyes a stupid midwife had blinded. I doubt if the most caustic of Paris newspapers could dissuade her from hearty enthusiasm for "les Americains."

Or consider the woman who beams over the rich old farm on the outskirts of Beaulieu-Quercy, near Belleau wood. To her the war was a distant rumbling, a faraway disaster, till one day all her neighbors from the north seemed in flight past her door and every one told her she too must fly. Then in came certain fresh young Americans who climbed into her greniers, strung wires from her lool-house, displaced her cows with map tables and slept all over her house. She heard the enemy come booming to the very edge of the landscape visible from her upper windows, saw these newcomers hurry up to get between her and that enemy (very obliging of them), knew of the tussle that followed, and then, in time, heard that the Germans were in inglorious retreat to the other end of the world. All this she saw with her own eyes, heard with her own ears. So, when some tired poilu says to her scornfully: "And did you know that those effroyable Americans are claiming they won the war?" she probably makes answer: "Mon dieu, and didn't they?"

So, if it be a good thing to hope that France and America will remain in sympathy with each other—not that their chancellories should always be in cahoots, but that their peoples should be fraternal and mutually respectful—we may all be glad that the hard-pressed folk of the Alsie at least do not think of the Americans as comrades in arms who, when the fighting was over, packed gayly off and left them neck deep in want and trouble.

Trustworthiness Attracts.

If you can't be a genius you can be a safe and sane leader in your own line. You can make reliability your motto and wrest from reluctant conditions a competence worthy of your rating. The majority of mortals are not trustworthy. They do what attracts irrespective of what the results may be. It's so easy to see the pot of gold at the foot of the rainbow until you go after it. But promises are variable quantities that require sacrifices of means or self to make real. In the process much of the rosiest loses its color and we find life more commonplace than we dreamed. So the honest seeker after place in progress will try to make good without leaning on fate. And by the process of developing himself he will often rise to the merit and reward of genius. This is all nature offers to men and they grow by using what they have.—Grit.

Heating by Acetylene.

Acetylene as a substitute for coal in domestic heating in Switzerland is reported to have given great satisfaction. For several months, the Palace hotel, a block of five houses at Lausanne, has been heated by hot water from a central station, where acetylene is generated in a stationary apparatus, mixed with air, and burned in a coil system. In 20 minutes the entire hot water service for the five houses can be raised to 160 to 175 degrees F. Heating the building in mid-winter would require nearly a ton of coal per day, but in mild winter weather a comfortable temperature is maintained with a daily consumption of 200 to 500 pounds of carbide.

LOCAL HIGH SCHOOL TEAMS TAKE GAMES FROM ST. IGNACE AND MANC- LONA.

Grayling High School boys and girls broke even with the St. Ignace boys and the Mancelona girls when they won on the home floor last Friday evening. When the boys' team played at St. Ignace, the latter won by one point, but it was a different story when they played here the score reading 34-10 at the end of the game. Also the Grayling girls were badly defeated at Mancelona by the big score of 45-5 and on the home floor the final score of a splendidly played game was 7-4 in our favor. Mancelona had some good basket shooters, but with McPhee and Hermann at guard they didn't get much of a chance. The score at the end of the first period was a tie 3-3. Salling and A. Larson did fine work as forwards, while Olson and Collen held down centers. Bates substituted in the last half and did good work. The boys' game started out fast and furious but St. Ignace soon waned. After our boys got started they thoroughly outclassed the visitors and basket after basket was rung up until the final gong was sounded when the score stood 34-10.

The High School boys play Wolverine at the School gymnasium Friday night and a good game is looked for as Wolverine is reported as having a strong line-up. The local Junior High will play the Frederic Junior High the same evening. Come out and cheer the boys to more victories.

FREDERIC SCHOOL NOTES.

Mrs. Hunter was a recent visitor of our schools.

Last Thursday night our high school boys played basket ball with St. Ignace. The game resulted in a score of 26 to 41 in favor of Frederic. Wolverine was here Friday night and our boys were defeated, score 19 to 22. Our team was not quite up to its average Friday night on account of the hard contested game the night feel proud of our record.

Our high school girls played a preliminary game with the Junior girls Thursday night and were defeated by a score of 2 to 5. Both teams played hard and the Juniors are to be congratulated. The outlook for athletics with the girls looks very favorable.

Mrs. Florice Venton, our primary teacher was called to Lansing Friday on account of the death of her niece. She returned to Frederic Wednesday. Miss Craven took full charge of her room.

Our Junior basket ball team expects to play in Grayling Friday night. They have a chance for a game with West Branch in the future if desired.

Eldo (Casey) Johnson was present at the basket ball game with St. Ignace and we are sure that he cheered our boys on to victory when he demonstrated his appreciation whenever they made a basket, especially during the last half of the game. The following Intermediate pupils were neither absent nor tardy last month: Clyde Doremire, Dolly Nelson, Charlie Johnson, Corinne Sheldon, Evelina Barber, Lola Craven, Anna-belle Hunter, Clayton Doremire, Elsie Burke, Clarice Welch, Francis Hunter, Flora Parsons and Leonard Burkett.

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Grayling people endorse Doan's Kidney Pills. You may rely on their statements. Ask your neighbor!

Mrs. August Schultz, Spruce St., Grayling, says: "Last winter I was in a miserable condition with kidney trouble. My back was weak and many a morning I could hardly get up; it was hard for me to do my washing, too. Every time I stooped over a sharp pain darted across my back just above my kidneys. I was so nervous I couldn't sleep well at night. I was completely run down and irritable and depressed. When I stood on my feet any length of time I became dizzy and specks kept going around in front of me. I had dull headaches. I was so weak and worn out I could hardly be a mother. My mother recommended Doan's Kidney Pills to me and I used a few boxes from Lewis' Drug Store. They rid me of the trouble in a grand way." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
